2022-2026. Cooperative Economic and Legal Vocational College
Associate's degree

Software Engineering

2016-2021. Palace of Children and Youth

School of Fine Arts

 English — elementary level, actively studying

ENLIGHTENMENT

Gained practical experience in development during training, internships, and independent work on my own projects. I was involved in creating websites, working with interfaces, quality control, and bringing projects to their final state.

PROJECT

The portfolio contains my own websites, interfaces, and digital solutions that demonstrate my skills in web development, design, and bringing my work to a finished result.
